SUMMARY

Looking to work in a challenging and responsible position in a professional organization where I can contribute to the success and growth of the organization by utilizing my skills and competencies.

PROJECTS

ERP Wages Manager for Employees

- Users can register and login and can fill up their profile, like salary, and designation, and provide daily wages. After that they can add and delete their daily wages and get track of their monthly expenses.
- This project was developed using ReactJS, HTML, and SCSS.
